Note that next ORF shows similarity to N-terminal part of P74055 APOLIDPROTEIN N-ACYLTRANSFERASE Erom Escherichia coli (519 aa), FASTA scores: opt: 142, Erom Colo, (29), identity in 17 aa overlap), suggesting possible frameshift. Sequence of clones from two sources has been checked but no error found.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     RAVSDGDAVRVGGTELRALHTPGHSPGSVCWYAPELGPGTGTVFSGDTLFAGGPGATG
